WATER TREATMENT

Spiff Company Ltd service has specialized in manufacturing Water Treatment Equipment/ Systems that is specially designed for applications where pure and hygienic water is required. Our systems are advanced technology to purify water by eliminating suspended solids. Offered at a reasonable price, our range is efficient, durable and requires less maintenance. Our water treatment solutions are customized to your specific need with processes such as Reverse Osmosis, Filtration systems, disinfection and water softeners.

REVERSE OSMOSIS (RO)

This is a technology of water treatment process that removes contaminants from water by using pressure to force water molecules through a semipermeable membrane. It provides a low-maintenance, chemical-free option to help achieve clean and great tasting water.

FILTRATION

Water filtration systems are a cost-effective way to improve your water Quality with minimum power and minimum water loss. Our systems are customized to your particular water quality and address turbidity and coloration due to high levels of sediments or suspended solids. Various types of filtration systems are available for different water quality, including sand filters, filter cartridge and ultra filtration.

ULTRA-FILTRATION(UF)

A process in which hydrostatic pressure forces a liquid against a semi-permeable membrane. Suspended solids and solutes of high molecular weight are retained, while water and low molecular weight solutes pass through the membrane.

WATER TREATMENT EQUIPMENTS

R.O DESALINATION PLANT

- Pre-chlorination
- Flocculation
- Sand filtration
- Activated carbon filter
- Sediment filter
- Reverse osmosis
- Desalination plant
- Micro filtration
- UV disinfection
- Storage tank

REVERSE OSMOSIS SYSTEM

- Pre-chlorination
- Flocculation
- Sand filtration
- Activated carbon filter
- Sediment filter
- Reverse osmosis
- Desalination plant
- Micro filtration
- UV disinfection
- Storage tank

P.O. Box 78 - 80309, Nairobi

Email: spiffcompanyltd@gmail.com / info@spiffcompanyltd.co.ke

Website: www.spiffcompanylimited.co.ke/

UF RO PLANT

- Pre-chlorination
- Flocculation
- Sand filtration
- Activated carbon filter
- Sediment filter
- UF RO plant
- Micro filtration
- UV disinfection
- Storage tank

DOMESTIC R.O PLANT

IT HAS 4 STAGES

PP SPUN SEDIMENT

Cartridge; filtering sand, rust, sediment etc; in water

BLOCK ACTIVATED CARBON

Removing bad smell, Chlorine, organic sediment in water & filtering suspended. particles

R.O MEMBRANE

Removing bacteria, virus, heavy metals, salts & other harmful particles

IN-LINE POST ACTIVE CARBON CARTRIDGE

Removing bacteria, virus, heavy metals. salts & other harmful particles

P.O. Box 78 - 80309, Nairobi

Email: spiffcompanyltd@gmail.com / info@spiffcompanyltd.co.ke

Website: www.spiffcompanylimited.co.ke/

PURE WATER WITH UF SYSTEM

6 stages system

- Sand filtration
- Cartridge filtration
- Micro filtration
- Ultra filtration
- Ultraviolet disinfection(uv)
- Filling station

PURE WATER SKID

4 stages system

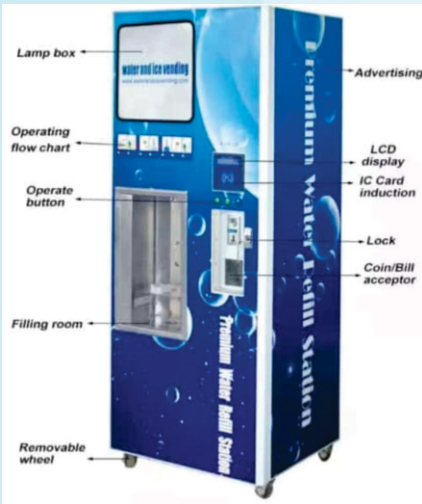

- Sand filtration
- Cartridge filtration
- Micro filtration
- Ultraviolet disinfection(uv)

P.O. Box 78 - 80309, Nairobi

Email: spiffcompanyltd@gmail.com / info@spiffcompanyltd.co.ke

R.O WATER VENDING MACHINE

- Sand filtration
- Micro filtration
- Reverse osmosis
- Energy mineralization
- Stainless steel storage tank/UV
- Disinfection
- Pump, piping/digital control panel
- Automated vending system
- Meter to keep sales
- Meter to control power consumption

TREATED WATER VENDING MACHINE

- Made with stainless-steel food grade
- Has automated vending system
- Accepts coin operation
With coins from 5/- to 40/-
- Has stainless steel storage/holding tank
- Single phase power supply
- Suitable for all types of containers
- Mobile

P.O. Box 78 - 80309, Nairobi

Email: spiffcompanyltd@gmail.com / info@spiffcompanyltd.co.ke

AUTOMATED FILLING MACHINE

AUTOMATIC LINEAR FILLING MACHINE

- Production capacity: 2000 bottles /hr
- 12 heads washing, 12 heads filling and 1 capping head
- Stainless steel gauge 304
- Bottle size - 350ml, 500ml, 1L & 1.5L
- Bottle neck size - 28mm
- Conveyer - 3.5M
- Dimensions: 2,700mm x 75,370mm
- 3 phase power supply

AUTOMATIC ROTARY FILLING MACHINE

- Production capacity 2,000 bottles per hour
- Washing (12 heads), Filling (12 heads) & Capping (1 head)
- Made of stainless steel 304
- Suitable bottle size - 500ml - 1.5Ltr
- Suitable bottle neck size - 28mm
- Power supply 3Phase

P.O. Box 78 - 80309, Nairobi

DAIRY EQUIPMENTS

MINI DAIRY PROCESSING PLANT

MILK ATM

- Stainless steel food grade 304
- Digital control panel
- Cost effective, made in Kenya
- KEBS Certified
- Small in size and its mobile
- Has password protection
- Has daily sales record

PASTUERIZER

- Fabricated with stainless steel sheets grade 304
- Built with geared motor fixed with agitator for mixing the product
- Has heating options i.e gas, element or steam
- Temperature monitor gauge
- Complete with it's control gauge

CHILLER

- Fabricated with stainless steel sheets grade 304
- Built with geared motor fixed with agitator for mixing the product
- Has heating options i.e gas, element or steam
- Temperature monitor gauge
- Complete with it's control gauge
- KEBS certified

P.O. Box 78 - 80309, Nairobi

Website: www.spiffcompanylimited.co.ke/

FILLING STATION WITH HOLDING TANK

- Made of stainless steel food grade 304
- Has filling points with nozzles
- Storage capacity - 500Ltrs

SOLAR WATER HEATER

- Made of food grade stainless steel
- Stable & reliable performance
- With intelligent controller
- Wind resistance
- Sus 304-2B/B outer tank against rust and corrosion
- Economical & improves the environment and saves you energy
